# FIND HEAD IN RUINS.

Skull of Ogress Is Discovered.

Authorities Are Satisfied Mrs. Gunness Is Dead; Bones Solve Mystery.

Despite Evidence of Remains and Rings Open Verdict Is Expected.

Eleven Watches Have Been Taken from Ashes at Laporte Farm.

(BY DIRECT WIRE TO THE TIMES.) LAPORTE (Ind.) May 14.—[Exclusive Dispatch.] The bones of contention in the Gunness tragedy, the bones of the missing head of the murdered woman, were found today in the ruins of the country house of horror.

After sifting the ashes in the basement away, Sheriff Smutser discovered a portion of the lower jaw bone, a section of the upper jaw, and a piece of the scalp covered with singed and matted hair, evidently protected from destruction in the flames because the weight of the head rested upon it.

This find the authorities and Coroner's medical commissioners asserted tonight practically clears up the mystery as to the identification of Mrs. Gunness. The disputed corpse in the ruins of the country house of horror.

Notwithstanding all the evidence, the rings found on the fingers of the burned body, the finding of the charred bones of the head, with pieces of the vertebrae of the neck, showing that the head was burned and not chopped off, and the satisfactory description of the bones as to the size of the corpse, it is probable that Coroner Mack will return an open verdict as to the death of Mrs. Gunness and her three children.

PROSECUTOR WORRIED. Prosecuting Attorney R. N. Smith, a young lawyer, undertaking a great murder trial for the first time, in which he had to contend with the probability that the Coroner's verdict will find that the deceased met death from an unknown cause, and that the identification of the bones has not been established.

All possible influence that can be rallied is being brought to bear on the Coroner and his advisory board of physicians to secure a verdict which will at least include identification of the bodies.

If the verdict is left open the case for the prosecution will be difficult. To begin with, the State will be compelled to prove that the bodies were those of Mrs. Gunness and her children before they may proceed successfully any further with the prosecution of Ray Lamphreys, accused of arson and murder in the first degree.

The prosecuting attorney, who, from the beginning, has conducted the case with a feeling of supreme confidence that all evidence necessary and all preliminary steps to the trial of the accused would smoothly take care of themselves, is now aware that the open verdict will prove a great obstacle to the case.

At the conclusion of the conference, Coroner Mack stated that he did not know what would be his verdict.

VERDICT UNDECIDED. "The verdict may be given in a day or two, or it may not be given until next Monday when the grand jury takes up investigation of the case," he said.

"What the verdict will be I am not prepared to say at this time. It will be guided largely by the recommendation of the board of physicians."

From other sources it was learned today that an open verdict has been practically decided upon. All the doctors of the Coroner's commission examined the bodies dug from the ruins late this afternoon. Dr. Meyer, Wilcox, Gray and Long, Coroner Mack, also present. The commissioners were assured that the bones were those of a human head. Other bones could not be definitely identified. Coroner Mack, who has been noncommittal throughout the case, would not express himself.

"I will not say the bones are human and I will not say they are not," said the Coroner. "It requires a more thorough examination."

"There is no doubt," said Dr. J. H. Williams Meyer, that the upper and lower jaw bones are bones of a human head."

The rings found on the body of the woman are now positively identified as rings worn by Mrs. Gunness. A magnifying glass was applied to a photograph of Mrs. Gunness today and the rings on her fingers were exactly like the rings in the Coroner's possession.

Attorney H. W. Worden, of counsel for Lamphreys, received a letter today from a mysterious source, disclosing the name of a man living in this vicinity, who, the writer asserted, should be arrested in this case.

MORE WATCHES FOUND. Because of peculiar circumstances concerning the letter, Attorney Worden is inclined to put some credence in the communication. The communication was received for breach of

# EDISON LOSES PATENT SUIT.

Court Decides Patent for Production of Incandescent Lights Is Void.

(BY DIRECT WIRE TO THE TIMES.) PITTSBURGH (Pa.) May 14.—[Exclusive Dispatch.] In an opinion handed down in the United States Circuit Court, Judge Buffington finds a patent issued to Thomas A. Edison on January 12, 1881, which resulted in great economy in the production of incandescent light bulbs, to have been void, and directs that a decree be drawn for the dismissal of a suit in equity brought by the Edison Electric Light Company against the Novelty Incandescent Company.

Judge Buffington finds that although Edison's bulb was a valuable correction, it was mechanical rather than inventive in character.

# CLAIMS DEALER SWINDLED HIM.

SAYS PAINTINGS SOLD HIM WERE NOT GENUINE.

Bought Two Pictures from Him Supposed to Have Been by Late Homer Martin and Another by George Inness, but All Were Spurious.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, May 14.—[Exclusive Dispatch.] W. T. Evans, chairman of the Art Committee of the Lotus Club, and known as a collector of paintings, announced this evening that he would begin a civil suit today against William Clausen, the art dealer, to recover the money which he paid Clausen for two pictures represented to be the work of the late Homer Martin, the American painter, but which Mr. Evans, after he had presented them with a number of other paintings to the National Gallery of Art, discovered, he says, to be spurious.

There were three pictures which Mr. Evans was led to recall from the Corcoran gallery at Washington, where they were an exhibition awaiting the time that Congress should provide a suitable building for the National Gallery of Art. One was entitled "Old Mill Near St. Cloud," another, "Near Newport," and the third, "Late Afternoon at Medford." The last-mentioned, Mr. Evans says, was sold by Mr. Clausen as from the brush of George Inness, the elder. The others were sold as the work of Homer Martin. All the pictures were signed.

Mr. Evans said today that investigation had convinced him that the Inness canvas was no more authentic than the others.

"Among the first fifty paintings," said Evans, "by American artists which formed a part of my gift to the National Gallery of Art, and which, pending Congressional action for the establishment of a suitable building, are now on exhibition in the Corcoran gallery in Washington, were two pictures, one called 'Old Mill Near St. Cloud,' the other 'Near Newport,' both bearing the name of the late Homer D. Martin, and a third picture called 'Late Afternoon at Medford,' bearing the name of the late George Inness. They had received the praises of the most accomplished critics and there was no reason to doubt that they were the genuine works of the artists named."

# GERM OF INSANITY IS DISCOVERED.

EASTERN ALIENIST CLAIMS HE HAS FOUND IT.

Asserts That He Experimented on Animals With It, and Observed That They Acted Similarly to Human Beings Who Are Afflicted With the Disease.

(BY DIRECT WIRE TO THE TIMES.) CINCINNATI, May 14.—Dr. J. D. O'Brien, the youngest alienist attending the national convention of the American Medical-Psychological Association here, read a paper today in which he claims to have discovered the germ of insanity.

Dr. O'Brien is from the State Hospital at Massillon, O., and declares he has discovered the germ of paresis through experiments carried on at the asylum. He asserts he discovered the germ in patients and to make sure of his discovery, he experimented with animals. The animals which he inoculated with the germs he says acted similarly to persons afflicted with the supposed incurable madness.

The doctor says through his research work many patients were able to leave the institution perfectly cured, and are now engaged in clerical work.

The discussion of the paper brought out decided views both in support and in opposition of the young man's views. The delegates that agreed with Dr. O'Brien were of the opinion that the discovery will result in many cases of paresis being cured.

# REGULARS WIN DAY.

Rule Convention at Sacramento.

Get Seventeen Out of Twenty Delegates to Chicago, Everything Else.

Knight, De Young, Melvin at Neff Chosen Delegates-at-Large.

Lincoln-Roosevelt League Is Defeated in Its Efforts to Run Things.

BY S. FRED HOGUE.

SACRAMENTO, May 14.—[Exclusive Dispatch.] The Lincoln-Roosevelt candle snuffed out this afternoon when the Old Guard carried the State convention by a vote of 551 to 275.

The majority would have been larger but for the fact that Judge Hunter and other northern politicians turned over to the league some votes they did not need in return for pledges of support in the Congressional fights next summer.

George A. Knight is chairman of the convention and the organization controls the State Central Committee which will lead the fight in delivering to William H. Taft the electoral vote of California. Five Congressional districts held their convention here this afternoon and elected ten straight Republicans under Taft instructions as delegates to the national convention at Chicago. The eight Congressional districts have now held their conventions and the Congressional delegation to the Chicago convention contains fourteen regular Republicans and two representatives of the Lincoln-Roosevelt League and the water front of San Francisco.

Leo C. Gates of Los Angeles was the last of the Republicans to join the down and out club. He stood for candidates for district delegates from Los Angeles county and was beaten by fourteen votes. Lissner told him he could win and for the second time in two years Gates has learned to his peril that Lissner is a false prophet.

While the members of the league were crying self-sacrificed this afternoon in the convention hall, Red Fennemay and other walking delegates of labor unions were gathered in the adjacent saloon throwing out handfuls of money that was paid into the coffers of the union by dupes who imagine they must submit to this out-lawry in order to hold their jobs. This money was used to win Lincoln-Roosevelt votes. Los Angeles county turned the tide for the Old Guard and the Los Angeles Republican delegates practically own Sacramento tonight.

LISSNER DISCREDITED. Meyer Lissner is one of the worst defeated and the worst humiliated political bosses that Sacramento has ever seen.

The newspaper men who have heretofore been friendly to the league have turned their backs on Lissner because of his defeat. The league would control the convention they have stultified themselves and their papers by publishing statements which Lissner must have known were untrue.

Last night Lissner gave out an official statement to the effect that the league would be in control today. After the ballots were counted this morning he said to the members of the press:

"We did much better than I expected we should do. I am well satisfied with the result."

It is the most humiliating statements that have won for Lissner the enmity of many who believed in him until the votes were counted.

In a group of northern and few Central California counties the regular Republicans claimed more than they delivered yesterday. This caused some apprehension in the convention when the roll for Southern California was reached. The league men of the North turned to Lissner to make good his claims.

Los Angeles county dashed these hopes to the ground by voting sixty delegates for Knight and forty for Davis. This was the vote by which the regulars claimed the county. The league, but not been able to gain a single vote.

Cries of satisfaction echoed through the convention hall; in the lobby, and on the outside these swelled to a shout on the voices of the multitudes, as Sacramento received its first news that the Old Guard had scored another notable victory.

As the chairman of the San Diego county delegation announced a solid vote for Knight, the Southern California delegates sprang to their feet, waved American flags in the air, and started in a triumphal march about the hall.

There were 136 loyal southern delegates in line. Maj. Powell marched in front, carrying a Southern California banner. Behind him came a brass band playing "America," and then the lines of delegates, each carrying an American flag. They were cheered clear around the hall.

# SUMMARY OF CONVENTION RESULTS.

THE regular Republicans organized and controlled the Republican State Convention at Sacramento yesterday and have the State Committee for the next two years.

For delegates-at-large to the National Republican Convention at Chicago, the convention chose: George A. Knight of Humboldt county, M. H. de Young of San Francisco, Henry K. Melvin of Oakland and Jacob H. Neff of Placer county. Gen. Otis was defeated by one vote, the labor unionites inducing the delegates from the mining counties to go against him.

Neff was put up by the Lincoln-Roosevelt League. The State delegation of twenty to the National Republican Convention is composed of seventeen regulars and three Lincoln-Roosevelt leaguers.

The platform contains ringing declarations for Roosevelt's policies and for Taft for President.

# GOVERNORS IN REVOLT.

Clash With Plans of President.

State Executives Anxious to Control the Permanent Organization.

Folk of Missouri Leads the Opposition Caucus in Washington.

Association Objects to Being Used as Big Stick Over Congress.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, May 14.—[Exclusive Dispatch.] There are omens of a battle when the conference for the preservation of the nation's natural resources reconvenes tomorrow.

President Roosevelt will logically lead the forces, consisting of the Committee on Resolutions, appointed by himself, and such other delegates as may adhere to him and the committee.

On the other side will be, apparently, Govs. Johnson, Folk, Glenn, Comer, Sheldon and others who believe that the Governors, not President Roosevelt, should conduct the organization in its permanence.

Signs of discontent were seen when Gov. Fort of New Jersey, who has come home, informed the other Governors that the Resolutions Committee, of which he is a member, would report tomorrow a resolution empowering the President to appoint an Executive Committee of five, and also giving to the President the duty of calling the next conference.

The Governors, led by Gov. Folk of Missouri, met after the conference adjourned and talked over a form of organization by which they might be unshackled. Gov. Wilson of Kentucky, Gov. Sheldon of Nebraska, and Gov. Folk were appointed a committee to formulate a plan of organization to be reported tomorrow. The two plans are now to clash, and who shall get a hearing, the President or the State executives, remains to be seen.

It is asserted that if the Resolutions Committee plan succeeds it will enable the President to use the association of Governors as a big stick over Congress. If none but the Governors have votes, they will have victory assured. But early in the present proceedings it was decided that all the delegates should vote. There are three delegates from each State besides the Governors, though appointed by them.

Then there are others appointed by the President. If the President wins, the Governors will form a second organization of their own. It is declared.

JAMES J. HILL SAYS WE ARE WISEFUL.

(BY THE ASSOCIATED PRESS.—P.M.) WASHINGTON, May 14.—Starting was the warning sounded today at the conference of Governors at the White House of the danger the nation confronts in soil waste and forest depletion.

The Governors listened and talked and applauded, but took no action. This is left for tomorrow, the last day of the conference, and a plan is afoot to have the prepared speeches for that day printed in the Record without reading, in order that the time may be devoted wholly to results.

The Resolutions Committee was in session all day, and will report in the morning. The committee consisting of the Governors of Kentucky, Missouri and Nebraska was appointed to bring in a suggestion for a permanent organization of Governors, independent, perhaps, of any other organization, which may be formed by the conference.

The President opened the morning and afternoon sessions, which were thereafter presided over by Gov. Johnson of Minnesota and Gov. Deneen of Illinois, respectively.

James J. Hill, the Great Northern, who led a long list of speakers, treated the depletion of the nation's resources in a very serious and impressive way. The issue was squarely joined as to some of the methods pursued by the government in the regulation of forest reserves by four Governors of the Northwest—Gov. Brooks of Wyoming, Gov. Cutler of Utah, Gov. Gooding of Idaho, and Gov. Toole of Montana.

Desperadoes Get Thirty-five Thousand Cash and Flee to Mountains.

Rob Station Agent and Special Guard in New Mexico.

(BY THE ASSOCIATED PRESS.—P.M.) EL PASO (Tex.) May 14.—Pursued by men and bloodhounds, three bandits with \$35,000 of loot in their possession are fleeing through the rugged mountain passes north of French, a little station eighty miles from East Las Vegas, N. M., on the Santa Fe railroad, in an effort to escape the clutches of the law.

At French, later this evening, they broke down the doors of the depot, bound and gagged the station agent and special guard, blew open the safe, took the money and rode away, leaving their victims helpless.

A tramp wandered into the station half an hour later, released the almost unconscious men and gave the alarm. The news of the daring robbery was wired to every town in the neighborhood of French, and a special train bearing thirty deputies and fifty horses left East Las Vegas in half an hour, hot on the trail of the fleeing bandits.

A special with four men left Dawson also, and a message was sent to the Territorial penitentiary at Santa Fe for bloodhounds, which were brought through an fast as the men could.

The stolen money was sent from Albuquerque this morning in Santa Fe train No. 19 to pay miners at Dawson, N. M. Only a branch road leads to the mines. A special transfer of the money was necessary at French. A special guard, heavily armed, accompanied the treasure and upon leaving the train at French, he went inside the station, placed the money in the safe and locked the doors to the depot.

Suddenly the noise of a breaking window attracted the station agent and they looked round to face the muzzle of two rifles. A third bandit broke the door and entered. He then held the two men covered with a revolver while the other bandits entered the building. After tying the guard and agent, the robbers shot the safe with dynamite, took the money and fled.

With Chairman James J. Hill of the Great Northern directing, Gov. Glenn of North Carolina, Gov. The scene previous to the calling the conference together by President Roosevelt was one of animated discussion. Notwithstanding the intense heat in the East Room, every available seat was occupied. President Roosevelt, upon calling the delegates to order, announced that Gov. Deneen of Illinois would preside at the afternoon session. The President then presided.

## VREELAND BILL PASSES HOUSE.

Democrats in Solid Phalanx

Fifteen Republican Members  
Vote With Them.

Kahn of California Presents  
Substitute.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, May 14.—The Vreeland currency bill, agreed upon by the Republican caucus, was today put through the House, under a special rule, by a vote of 145 to 115. Fifteen so-called insurgents of the majority party voted with the Democrats, who went on record solidly against the measure.

The closing moments of the debate were replete with excitement and Republican enthusiasm, caused by the refusal of the great majority of the Democrats to go on record for the Williams bill, which had been offered by Mr. King of California as a substitute for the Vreeland bill, in accordance with a well-laid plan of the majority leaders to ascertain where the Democrats stood on the proposition, which it was claimed by several, was supported by Mr. Bryan. Ninety-three Democrats voted "present," which aroused the Republicans to a high state of hilarity at the expense of the minority.

Only a handful of Democrats had the temerity to vote "aye" or "no." The action of Mr. Kahn was due to the refusal of Mr. Williams to present his bill as a substitute, which under the rule, he was specifically authorized to do.

At 4:30 the House recessed until tomorrow at 11:30 a.m.

As soon as the bill reaches the Senate, Mr. Aldrich will call a meeting of the Committee on Finance to consider it. It is expected the committee will vote unanimously to amend the House measure by striking out all after the enacting clause and inserting the provisions of the bill which was passed by the Senate.

It is not doubted that the Senate will approve the action of the committee. The effect of this course would be to send both the Vreeland and Aldrich bills to conference.

## COURT GRANTS M'KEE DIVORCE.

CHILD IS GIVEN INTO CUSTODY  
OF MOTHER.

Court Says Husband Violated "Elementary Decency" by Having His Wife's Love Letters Read—Says Side Culpable for Infidelity of Household.

(BY THE ASSOCIATED PRESS—A.M.)

PARIS, May 14.—The court today in granting the Mrs. McKee divorce found that both Mr. and Mrs. McKee had contributed to the unhappiness of their household.

Mrs. McKee is given the custody of their child, with the provision that Mr. McKee be allowed to have the child one month yearly, as well as being permitted to see it twice a week if living in the same city or town. The court also found that Mr. McKee's charge that Col. Baxter and Mrs. McKee, his daughter, had inspired libelous articles against him in the American newspapers were not proved, and dismissed the case. Mr. McKee was ordered to contribute \$1,000 monthly for the support of his child. The divorce suit was brought in this city by Mrs. A. Hart McKee, formerly Mrs. Hugh Davis.

The court was of the opinion that a reconciliation between the McKees was impossible, so a separation was the wisest thing. It found the husband guilty of violence and of having committed grave wrongs toward his wife, saying he had yielded on the slightest provocation to the insults, threats and violence. He had aggravated these wrongs by bringing charges against his wife which he could not prove, as well as having tried to court his wife's love letters, which "elementary decency" should have prevented him from making public.

The court found that the wife on her side unwarrantedly attacked her husband by making charges in connection with the disappearance of her jewels and other property, charges which were entirely disproven.

The tribunal referred to the notarial court all fixed questions between Mr. and Mrs. McKee, and divided the costs between the plaintiff and the defendant.

The formal decision read as follows: "The court grants the divorce at the request and in the interest of both parties."

The woman is about 25, well dressed and of comely figure, residing in Middlesex street, Boston, about six years ago. ## FLYING MACHINE MAKES DISASTROUS FLIGHT.

FATEFUL ERROR.

## AIRSHIP IS WRECKED AFTER GREAT FLIGHT.

(BY DIRECT WIRE TO THE TIMES.)

MANTEO (N. C.) May 14.—[Exclusive Dispatch.] After the greatest of airship flights this afternoon the machine of Wilbur and Orville Wright was smashed into an unrecognizable mass.

The navigator of the machine, Wilbur Wright, escaped from the affair practically unhurt, having received nothing more than a mere scratch on his face.

The machine had already flown eight miles in seven minutes and forty seconds under perfect control. The wrecking of it was due to an error on the part of the navigator.

Proceeding slightly in a downward course it was designed by the navigator to elevate its course, but instead of working the lever to accomplish that result he worked it so as to direct the course of the machine still further downward.

Responding instantly to the influence of the lever the machine shot downward and to the ground with great rapidity. As it fell it was put together it was crushed like an egg shell.

LUCK OF WRIGHT.

Wilbur Wright's luck which has stood by him ever since he has commenced his ascents in the air was still with him. The machine was wrecked behind a sand hill two miles from the point from which it was started.

Rising from a point near the house in which it is stored the machine flew away, with twice the speed of a bird. Its course was directed north along the beach for a mile and a half when it was turned to the westward flying high over a small sand hill and passing in between two large ones it was then made to circle still another sand hill, the furthest point in their circle being two miles from where the machine started on its magnificent but disastrous flight. The course of the machine was then directed back toward the starting point.

Wilbur Wright kept the machine up and continued the flight following the identical course that he did when the machine first got under way. All continues to go well until the fatal mistake behind the last sand hill. The total distance flown is computed by adding together the two miles between farthest points traveled three times and an allowance of two miles, a conservative estimate for the many long curves and angles made.

ARE UNDAUNTED.

The Wrights state that they will immediately pack up the wreckage of their machine and ship it back to their home in Dayton, O. They are undaunted.

The new design of steering gear which the inventors used was not adjusted to the satisfaction of the aeronauts. It was to experiment with this and to make observations in the use of the machine and its control, with the ground that the aeronauts were being made. But short and frequent curves were made, and the machine was always under perfect control, the descent being made at the will of the navigator who would be first one of the brothers and then the other. Not once was the machine other than under absolute control.

Eddy, one of Michigan's wealthiest men, sensational charges are brought against Mr. Eddy's children by his first marriage.

Mrs. Lila Eddy-Mills-McCurdy, who figured in a sensational divorce suit against Commodore Merrill B. Mills of New York and Detroit, recently, is one of the chief actors, it being charged that it was she who poisoned the mind of Mr. Eddy against her stepmother before his death.

Accusations of fraud are brought in an alleged visit of Walter G. Eddy, a son, on behalf of Mrs. Mills-McCurdy and the other heirs, as well as himself, to the proper authorities in Los Angeles, where Mr. Eddy died in 1901, to induce her to sign away all rights to the estate.

"Walter Eddy found his stepmother ill and totally unaware of her rights to a share in her husband's estate, and he declared Attorney Harry Hoffman in court today. "Cunningly convincing her that she had no rights beyond those under the will, he secured her signature to a paper which purported to be an assignment of her claim to some household furniture but which had a clause inserted in the middle by which she assigned all rights to the estate to her stepmother, Mrs. Mills-McCurdy. This assignment she now seeks to have set aside and permission granted to her to share in the estate under the statute."

As a result of Mrs. Mills-McCurdy's suit, which closed its second annual convention in the Stratford Hotel today, this decision, according to Secretary Clarence E. Runey, means that the girl in tight, jumping through a hoop of fire, is to be a thing of the past on the billboards of the country.

The couple were married at Astoria, B. C., in 1899, and almost immediately went to Dawson. Mrs. Becker's mother and sister visited them there, and Mrs. Becker says that her husband is a habitual drunkard and she fears to live with him.

**SCHIFF AND KAHN ANSWER.**

**File Reply in Federal Court in Salt Lake in So-called Anti-Merger Action.**

**[BY THE ASSOCIATED PRESS—P.M.]**

SALT LAKE (Utah) May 14.—Jacob Schiff and Otto Kahn, two of the defendants in the so-called anti-merger case, answered the government suit under the Sherman law against the Utah Pacific Railroad and other today filed answer in the Federal District Court.

The defendants have now answered except the Northern Pacific and Great Northern roads, and from these no answer is expected.

Schiff and Kahn admit many of the facts recited in the complaint, but deny the charges of collusion and combination in restraint of competition between the Union Pacific and Southern Pacific, or any of the other lines engaged in competing traffic.

It is asserted that all the transactions between Kuhn, Loeb & Co., and the Union Pacific or Oregon Short Line were entered into by the members of the firm as bankers. As directors of the Union Pacific, the defendants say, they acted for the best interests of the company and the stockholders.

The reason that they resigned as directors in February, 1906, Schiff and Kahn maintain that they should not have made defendants in this suit.

**WANTS OUR GOOD WILL.**

Motive Which Actuates Germany in Continuing Negotiations With American Government.

**[BY DIRECT WIRE TO THE TIMES]**

BERLIN, May 14.—[Exclusive Dispatch] While the government officials positively deny the report emanating from Washington that the negotiations between Germany and the United States treaty with the United States have been broken off, the incident serves to bring out the somewhat pessimistic view of influential elements in Germany with reference to such arbitration projects under present conditions.

At the Foreign Office it is said that Germany is still in doubt, and hope is entertained that they will lead to mutually satisfactory results.

It is probable that German officialdom in Germany's attitude in the present case is dictated more by a desire to retain the good will of the United States than by faith in the utility of arbitration.

**SON EXPOSES HIS FATHER.**  
Revels Against Alleged Life of Crime.

**News Will Come as a Bitter Surprise to Mulhall.**

**Overwhelming Mass of Evidence Secured.**

James Mulhall, part owner of the Hotel at Venice, now in custody of the Federal authorities on a charge of aiding the mafia for fraudulent purposes, is evidently unaware that he was located through information given by his 12-year-old son, Joseph, who lives in Chicago with his mother.

After arraignment yesterday before Commissioner Van Dyke, Mulhall, who said he was innocent of the charge, was told the news of his arrest would greatly shock his wife and son.

"I had been planning to have them come out here and see me on my last day," he said, "but now this disgrace has been heaped upon me. It is a put-up job. I know the man in Chicago who told a pack of lies to the post-office inspectors. He is trying to 'do' me. I know he would never be caught."

Mulhall appears to be of German descent and there is nothing about him to mark him as one of the "muck" men. He is a native of the United States and has been engaged in a criminal career for the past five years and has eluded arrest through his shifty ways.

**SON CONFESSES.**  
His arrest is attributed directly to the confession of his son, who revealed to the life of crime father, who had attempted to force him.

According to Dist. Atty. Shiner of Chicago, young Mulhall is a high school senior who could not be the flagrant of being even an unwilling accomplice in his father's swindling schemes.

"The boy told me a most remarkable story of the contempt his father entertained for State and Federal authorities," said Shiner to the Times correspondent yesterday. "The elder man was accustomed to boast, according to him, that he would never be caught."

The grocery store of Coleman & Co. on Catalina avenue, was broken into a few weeks ago through a rear window opening into an alley. The thief was interrupted by one of the proprietors and succeeded in making his escape, but not without injuring Mr. Coleman slightly with a stone which he had in his hand, and so preventing a successful chase. Judging from the certainty and ease with which he made his escape through the twists and turns of the alley it is believed that the burglar was also a local man.

The question being widely asked today on the streets is: Where was the night watchman that occurrences of this kind would take place in the most public part of the town?

**MURDEROUS.**  
**ATTEMPT TO BURN PUBLIC SCHOOL.**

**LIVES OF SIXTEEN HUNDRED CHILDREN ENDANGERED.**

Fire is started on steps of Building Containing. Among Other Pupils, Three Rooms Full of Deaf and Dumb Scholars and Two-Doors of Blind Students.

BY THE ASSOCIATED PRESS.—A.M. CHICAGO, May 14.—Detectives in the employ of the Chicago Board of Education are searching for an incendiary, who attempted to burn the Clark public school, containing 1600 children, at Ashland avenue and West Thirtieth street.

The fire, which started at the foot of one of the stairways on Monday, was discovered in time to prevent the spread of the flames. The lower steps of the stairway had been saturated with kerosene, and a bucket of shavings and paper set afire. The flames had not yet caught the oil-soaked wood when the alarm was given.

In the building are thirty school rooms. Three rooms are filled with deaf and dumb pupils, and two-score blind students are scattered through the various grades.

The attempt to fire the building was discovered by one of the mutes. Terrified, he ran back to the school room, where he was sitting, and called out to the deaf and dumb department, by the skirts, and dragged her to the top of the building. Miss Martin, called the janitor, and the fire was extinguished.

No fire alarm was sounded, and but few children in the school knew anything about the tragedy which threatened them.

**THURSTS CLOSE TO HEART.**  
Assault of Mexican at Los Alamitos Inflicts Severe Wound on His Victim.

(SPECIAL CORRESPONDENCE OF THE TIMES.) LOS ALAMITOS, May 14.—With blood flowing from a hole in his ribs, Rafael Queros staggered into a pool hall here last night. He was stabbed almost to the heart. A terrific knife thrust cut a gash four inches in length, punctured the chest, completed several ribs and penetrated the left lung.

The name of the man who attacked Queros and the cause of the attack are unknown to the officers. The Mexican, who was taken last night, He refused to give any information.

From the pool hall Queros was taken to the laboratory of the best-sugar factor and was then removed to Santa Ana for surgical aid by Constable C. W. Moore, who is of Spanish blood and familiar with the Spanish language.

Queros had been drinking during the day. On May 8 he finished a five-day sentence at the County Jail for disturbing the peace.

Constable Moore, who is Los Alamitos police officer, was on duty when the cutting occurred. He was present as a witness at the trial of Rafael Queros in Santa Ana. He was a resident of this city, is on trial for killing Deputy Constable Juan Orozco here on August 23.

The account of Queros is considered remarkable. The cutting of a rib must have tested the strength of the knife and the arm that sent the blade into Queros' lung must have been powerful. Twelve stitches were necessary to close the wound.

**WANT FULLERTON HELD.**  
APPLY FOR WARRANT.

(BY THE ASSOCIATED PRESS.—P.M.) SAN FRANCISCO, May 14.—The detectives who brought to this city Robert W. Fullerton, accused of wronging Miss Gladys Hobart of New York, made a new move in the case today without waiting for Judge Seawall's decision on the prisoner's application for release on a writ of habeas corpus.

Application was made to Police Judge Shortall for a warrant charging the prisoner with being a fugitive from justice from the State of New York, and asking that he be held until such time as the necessary steps can be taken for his return to the place in which the official arrest took place. The complaint today makes no mention of Miss Hobart.

Arguments in the habeas-corpus proceedings were heard today by Superior Judge Seawall. Attorney Peter F. Dunn, appearing for Fullerton, and Asst. Dist. Atty. Cook for the prosecution.

## CALLS BURNS BLUFFER.

KING EDWARD IS INCENSED.  
(BY THE ASSOCIATED PRESS-P.M.)

LONDON, May 14.—The controversy between Tommy Burns and Jack Johnson of Philadelphia, has pervaded the highest British sporting circles. It has been the principal topic of discussion among the members of the Jockey Club on Newmarket course.

King Edward took issue with a close friend, Lord Lansdowne, the latter has taken the keenest interest in promoting a bout between the negro and the American. Said the King: "Lansdowne is a promoter, and he is giving to give that Tanqueray bluffer Burns a £500 to win, draw or lose, you can rest assured that I will take every means in my power to stop the contest."

"I am a sportsman, but Burns's proposition is not sportsmanlike, and all England will be up in arms if it is permitted to take place."

From an intimate friend of Lord Lansdowne, it was ascertained that Burns agreed to terms which are in accordance with British views of sportsmanlike behavior. It is not to be expected that Burns will be tempted to fight against a negro, a critic now says. Burns's explanation of his refusal to agree to fight is: "If I meet Johnson, I will be obliged to fight every negro aspirant all along the line."

THAT BROCK KNOCK-OUT. SUBSTITUTED ANOTHER MAN. With Phil Brock and Frank Carney both in Los Angeles training for fights, the local boys are receding to find out the fact that the sporting dope books show that Carney knocked out Brock on behalf of Kid Bebe of Philadelphia, on January 1, 1902. Concerning the fight, a critic now says: "It is an interesting account of the battle that took place in an inter-city meet in the latter part of 1901, the Cleveland sports took Brock down to the eleventh round, and Carney was the victor by a large margin."

Instead of Bebe, the promoter shipped in Frank Carney, who must have weighed over 150 pounds. Brock was a boxer, so it was a case of a willing boy about 17 years old going against a seasoned veteran. Brock was supposed to be a champion, but he was not. Brock was the victor by a large margin.

The Cleveland bunch of sports never tumbled till Kid Bebe, who fought in Brooklyn, and Carney was the victor by a large margin. Brock was the victor by a large margin.

Notwithstanding the general belief that Brock was a champion, he was not. Brock was the victor by a large margin. Brock was the victor by a large margin.

Manager McCarty of the Pacific Athletic Club has completed his card for next Tuesday night with Eddie and Phil Brock. Brock was the victor by a large margin.

NEW ATHLETIC AND GYM FEATURES. NEW YORK, May 14.—The first gymnasium to be opened by a Young Men's Christian Association in Russia, and the first school of scientific physical training, using the methods developed by the Y.M.C.A. and colleges of America, has just been opened in St. Petersburg. It had at once sprung into popularity and the Russians are heartily taking to it.

SEVENTEEN TEAMS ENTERED.  
Stanford Stands Chance of Taking  
Several Events—Chicago and Illi-  
nois Favorites.

CHICAGO, May 14.—Seventeen track teams have entered the conference meet, which is to be held on Marshall Field, June 5. In addition to the "big eight" there will be squads from Stanford, Grinnell, Ames, Michigan Agricultural College, Lawrence, Morrisville, Olive Drake and Beloit. There are in all 225 individual entries, as against 200 last year. Missouri, Kansas, Iowa, Illinois, Wisconsin, North Dakota, Lake Forest and Knox may also enter teams. The revised list of entries closed May 20.

The 1902 event will make up in class for the loss sustained last year through the "reform" rulings. Many of the college events were caught in the retroactive effect of the three-year rule last year, but the colleges will have the full strength of the sophomore, junior and senior classes in the coming meet. While many of the 1907 winners have graduated from college, still the crop of newcomers will be large, and the coaches are looking for top-notch performances from the new men.

Chicago and Illinois are the "big eight" favorites for conference honors. Stanford is a well-balanced enough team to look for a high total, and this fact makes the "big eight" favorites for conference honors. Friday Skirt Sale**

The prices must do the talking. The character of all "Unique" garments is too thoroughly established to need any elaboration. Suffice it to say that these skirts are the very newest and most exclusive models shown anywhere today.

We are overstocked and that is why we resort to such extremely low prices. We believe this is the most remarkable skirt opportunity ever offered to the women of Los Angeles. If every woman realized the unusualness of the values, there wouldn't be one tenth enough skirts to go around. Come early.

**\$12.50 to \$15.00  
Skirts \$8.95**  
Separate skirts in black, blue, brown, white and mixtures. Made in the new ripple gore and plaited effects. Materials are volles, panamas, serges and worsteds. There are extra large sizes in blacks. The regular values \$12.50 to \$15.00 today.

**MAY FETE IN THE ARROYO.**  
In a wooded spot in the Arroyo Seco,  
the Junior girls of Occidental College  
held a May fete last night. A large  
crowd attended. The place was decora-

the young women, attired as colonial  
dames, served refreshments at quali-  
ty-constructed booths. A May-pole  
dance was gracefully executed by a  
number of the junior girls, and a  
contest was presented by Grace Whitcomb,  
Sadie Twining, Janet Smith, Helen  
Mackett, Christine Hightstreet, Lucile  
Rice, Elizabeth Patterson, Leah Phil-  
lips and Etta Lee were sassy fortune-
